Submission of Response Under 37 CFR 1.497(a) and (b)

Sir:

In response to the 371 Formalities Letter Notification of Defective Response dated 05/29/07 please add inventor Kenneth W. Parkman to the current U.S. National Patent Application.

Please accept this as a statement of non-malicious intent of any sort on behalf of The Engelhard Corporation at the time of filing. It seems that this was caused due to human error. I feel that I was unintentionally left out of Engelhard's Patent database which inadvertently caused the PCT Request to be filed omitting me as a co-inventor.

Respectfully submitted,

Kenneth W. Parkman
